New York, NY 10027 | (571) 645-6223 | cf3084@barnard.edu

EDUCATION

Barnard College of Columbia University , New York, NY Major(s): B.A. Information Science and Environmental Analysis	<i>Aug 2025 - May 2027</i>
University of Virginia , School of Data Science, Charlottesville, VA GPA: 3.88/4.0 Major(s): B.S. Data Science and Global Environments and Sustainability	<i>Aug 2023 - May 2025</i>
Episcopal High School , Alexandria, VA Weighted GPA: 4.64 <i>Cum Laude</i>	<i>Sept 2020 - May 2023</i>

PROFESSIONAL EXPERIENCE

FWD Group Holdings , Hong Kong, SAR Group ESG Intern	<i>June 2025 – Aug 2025</i>
- Conducted ESG research on TCFD framework, ISSB disclosure requirements, and analyzed insights from Big Four firms on supply chain practices to recommend strategic improvements for FWD's sustainable procurement integration - Collaborated with branding, marketing, and strategy teams to refine inclusive insurance policies and built separate Power BI and Tableau dashboards to present to the board and 50+ stakeholders on emissions intensity metrics across Scope 1-3 - Built a Python automation model that integrated 15,000+ rows of emissions data and expenses for cost-analysis calculation, then validated results in Workiva, identifying 15+ gaps and improving accuracy by 18%	
University of Virginia, School of Data Science , Charlottesville, VA Research Assistant	<i>Nov 2024 – May 2025</i>
- Design a multi-faceted research initiative to explore the evolving data science job market, including surveying data scientists to identify commonly used tools and skillsets and conducting 10 qualitative interviews - Develop automated web scraping and API access solutions to gather job postings from regional markets, creating a recurring system for analyzing hiring trends in key industries such as healthcare, defence, and finance - Lead the creation of student-focused career resources, including a digital repository of interview summaries, tool guides, and hiring processes at top companies, fostering connections with industry professional to provide insights for 75 peers	
University of Virginia Career Center , Charlottesville, VA Science & Technology Career Peer Educator	<i>Aug 2024 – May 2025</i>
- Executed interviews with six UVA STEM professors to gather insights on career advice, diversity, equity, and inclusion (DEI) in STEM, and emerging trends, sharing key findings through three published blog posts - Provide 50+ personalized feedback on student resumes and cover letters per semester and enhance career preparedness for STEM-related roles; wrote job-market newsletters and assisted with the career center website redesign - Deliver workshops and presentations on resume writing, internship search strategies, and navigating the STEM job market, while supporting eight career fairs and three large-scale employer networking events - Contributed technical reflections on keynote speakers at Science and Technology Career Fairs, covering topics such as Public Interest Technology (PIT) and low-code platforms to educate students on emerging industry trends	
Jaguar Microsystems , Hong Kong, SAR Product Marketing Intern	<i>Jun 2024 - Aug 2024</i>
- Developed a structured customer feedback loop to address hardware issues, leading to significant improvements in customer satisfaction and product reliability - Collaborated with cross-functional teams, including chip developers, product testers, and application engineers, to identify and resolve technical issues encountered during DPU testing processes, contributing to product optimization - Conducted market research to assess competitors' product features and user satisfaction, presenting insights to the marketing and engineering teams to drive competitive strategy	

PROJECTS

Built a classification model to predict the likelihood of obesity	<i>Feb 2025 - May 2025</i>
